

Seminar Recent Research Summer 2018

This Seminar will deal with selected topics of law and economics, methodological as well as empirical, presented by guest speakers. Students will thus be made familiar with selected issues at the frontier of law and economics and critical reflections thereupon. They will be invited to act as discussants of the papers presented

All students: One written comment on one of the papers presented by the guest speakers

EMLE: Also presentation of core ideas of master thesis

Bonus points for active participation
